AMEND Senate Bill No. 1085

House Bill No. 782*

by adding the following new section immediately preceding the last section and by renumbering the subsequent section accordingly:

SECTION _____. The transmission of electronic signals by a local exchange company to the extent that the local exchange company merely carries that transmission over its network shall not be deemed to be the transmission of unsolicited bulk electronic mail as prohibited by this act.

AND FURTHER AMEND by adding the following as an appropriately designated new subdivision of Section 2 of the printed bill as amended:

() "Local exchange company" includes telecommunications service providers as defined in Section 65-4-101; competing telecommunications service providers as such term is defined in Section 65-4-101; telephone cooperatives; cellular or other wireless telecommunications providers; and interactive computer service providers as defined in 47 USC § 230(f).

Senate Judiciary Committee Amendment No. 3: adds new language defining the term "local exchange company." The amendment then provides that the mere transmission of electronic signals by a local exchange company over its network does not constitute the transmission of unsolicited bulk electronic mail as prohibited by this act.
